

The PLACE Independent School School Uniform Policy

It is our belief that the correct wearing of the uniform enhances both the child's self esteem and the school's image. It is also in keeping with the school's therapeutic ethos to be warm and safe and prepared for the educational day.

Both young people and staff at our school are required to wear the school logo'd uniform.

The wearing of the correct school uniform is compulsory for all students at The PLACE Independent School.

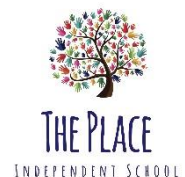

Parents/Carers will be contacted if the incorrect uniform is worn and be expected to rectify the problem immediately. If for some reason your child is unable to wear their correct school uniform (e.g. shoes are broken) we expect parents/caregivers to write a note explaining this to the teachers and when they intend to have the matter rectified (48hours grace will be given).

To ensure our young people are able to succeed in education we need to ensure that they are warm and dry.

The PLACE Independent School is deliberately rural and has many unbuilt natural areas ready for development. We want young people to explore, learn and develop and help create lasting projects within the school environment. Our school is definitely a "wellies needed" environment. Children can learn without the social pressures of a highly structured competitive environment, they learn to look within and become big hearted, unique independent thinkers.
